

Computing - Years 1 and 2

Subject Content

Pupils should be taught to:

- 1 Understand what algorithms are; how they are implemented as programs on digital devices; and that programs execute by following precise and unambiguous instructions
- 2 Create and debug simple programs
- 3 Use logical reasoning to predict the behaviour of simple programs
- 4 Use technology purposefully to create, organise, store, manipulate and retrieve digital content
- 5 Recognise common uses of information technology beyond school
- 6 Use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies
